

I am extremely concerned that you will be replacing FM translators with LPFM, thereby removing wholesome programming such as K-Love. I could not make it through my day without K-Love to lift me up and provide moral and family friendly programming that I feel safe allowing my children to listen to. Without family-friendly programming such as K-Love, our communities would lose a valuable resource for encouraging values and morals. We all lose as a society when our members lack values and morals. Lack of character rips the fabric of our neighborhoods, our communities, and our nation as a whole. We have a right to listen to wholesome and religious programming, you are trampling on our rights by giving LPFM priority over our wholesome programming.
